

ACCEPTABLE USAGE NETWORK POLICY

This is an extract from the **Student BYOx Charter** and more detailed information can be found in that charter.

Acceptable personal mobile device us

Upon enrolment in a Queensland Government school, parental or caregiver permission is sought to give the student(s) access to the internet, based upon the policy contained within the [Acceptable Use of the Department's Information, Communication and Technology \(ICT\) Network and Systems](#), Student BYOx Charter.

Communication through internet and online communication services must also comply with the school's [Student Code of Conduct](#) available on the school website.

While on the school network, students should not:

- Create, participate in or circulate content that attempts to undermine, hack into and/or bypass the hardware and/or software security mechanisms that are in place.
- Disable settings for virus protection, spam and/or internet filtering that have been applied as part of the school standard.
- Are unauthorised programs and intentionally download unauthorised software, graphics or music
- Intentionally damage or disable computers, computer systems, school or government networks
- Use the device for unauthorised commercial activities, political lobbying, online gambling or any unlawful purpose.

Note: Students' use of internet and online communication services may be audited at the request of appropriate authorities for investigative purposes surrounding inappropriate use.

Misuse and breaches of acceptable usage

Students should be aware that they are held responsible for their actions while using the internet and online communication services. Students will be held responsible for any breaches caused by other person(s) knowingly using their account to access internet and online communication services.

The school reserves the right to restrict/remove access of personally owned mobile devices to the intranet, internet, email or other network facilities to ensure the integrity and security of the network and to provide a safe working and learning environment for all network users. The misuse of personally owned mobile devices may result in disciplinary action which includes, but is not limited to, the withdrawal of access to school supplied services.

4 Simple Steps to Solve an IT Problem:

1. Close programs that do not work and re-open them
2. Close all apps and re-start your device
3. Check your connectivity to the school's wireless network. Seek help from Technology if you are not connected.
4. Reset your Username/Password for the school in the library.
